“Hard work can take you to places”

I realized this after becoming a part of NCA in 2019 that anyone can be a part of the best institutes in the world if persistent hard work is done.

Here at NCA I am reminded of how MDC has helped me become a better artist and a much better person. I joined MDC in 2017 after completing my matriculation.

It was through the continuous support of the principal and teachers at MDC that I worked hard and attained first position in the FBISE HSSC Exams 2019.

My overall experience at MDC has been wonderful. It motivates students to academic success. Since the experienced faculty of College makes sure that students are not just left with bookish content in their minds but conceptual framework in their hearts too.

Thankyou MDC for shaping my future. May Allah bless the institution and the faculty tremendous success! Ameen.

MAHNOOR USMAN

By the grace of Allah Almighty, I am an MBBS student at Kind Edward Medical University, Lahore.

It is a great opportunity for me as an MDC High Achiever to share my success story and views with you.

I've scored 1050/1100 marks in Pre-Medical in HSSC FBISE Annual

Examination 2019 and secured 4th position in Federal Board and 1st position in Wah and Taxila region.

When I look back to my experience at MDC, I find that it was full of learning, each moment contributed in making us successful human being. This prestigious institution proved to be an enlightening platform for me. It not only equipped me with preliminary concepts but also enhanced my empirical approach.

Remember! Discipline in an educational institution holds the pivotal importance and in this regard MDC has exemplary discipline which is aiding to its educational efforts in achieving success and commendable reputation. I owe my achievement to the benign patronage of Principal and untiring efforts of faculty.

AROOSA JAVAID

I am studying Software Engineering in UET Taxila. I did my F.Sc from Mashal Degree College. This College is a place where students come unsure of what they want to become with almost little knowledge about their ambition but I was fortunate enough to have

great teachers who guided me to the right choice.

All the teachers taught us with dedication and made our concept clear. They were always very supportive, caring and hard working. The educational environment was perfect at Mashal College. In short Mashal Degree College is a symbol of excellence having outstanding teaching staff and an excellent learning and grooming environment.

ALEENA ILYAS

Mashal Degree College that it prepares students to face the challenges of life with honour, confidence and fortitude.

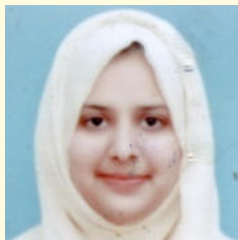

MAHA SIDDIQUI

Currently I am the student of 1st semester Electronics Department, UET Taxila. I am proud to be an alumnus of Mashal Degree College, which has proved as a platform for elevating me to the position where I am today. In the fruitful years spent at MDC, I was nurtured and

modeled to face the challenges and grab the opportunities that lie ahead. I know I would not be where I am today without the support and efforts of the administration and faculty of MDC. MDC aims to equip students to meet the challenges of the 21st century. It helps students to strive towards acquisition of attributes that befit the national objectives. These attributes are in turn reflected in their everyday behavior and attitude.

MDC has enhanced my learning curve. The college provided me with numerous platforms to showcase my talent.

Concluding, I can positively say MDC has made me a responsible citizen and good human being. It has helped me to develop a positive attitude towards life and discover more about myself, while giving me a memory to cherish for the life time.

AMNA ARSHAD KHAN

I'm currently a student of Electrical Electronics Engineering in Comsats University Islamabad. I completed my FSC from Mashal Degree College, Wah Cantt in 2019. This College is the best platform for all students to show, prove, learn and enhance their talents and skills.

No doubt, this college provided me a lot of opportunities in academic as well as in co-curricular activities, I owe my success to the hardworking teachers of the college, who gave their best under the supervision of hardworking and dedicated Principal. It was their guidance and counseling that enabled us to get admittance in some of the prestigious institutes of the country.

I am thankful to Almighty Allah and my respectable teachers at MDC who helped me to explore and polish my talents. Thank you, MDC!

"Success is a journey, not a destination"

Although this destiny surely has a lot of phases. Depending on the growing maturity of a human being during each phase, it requires a different method of teaching. Life often breaks us down to pieces and then remakes

us from the scratch. But during this reconstruction, everybody needs guidance in order to rise again as a better person.

I feel proud to say this that MDC has the best teachers who provided me guidance that I needed to become the person that I am today. I am currently studying software engineering at University of Haripur which has been my passion since my school time.

I was lucky when I got admitted in MDC after my matriculation. The teachers are very humble and cooperative; they provided me with the motherly motivation and support to carry-on this field.

This journey does have a lot of hiccups but MDC and its teachers have taught me to be steady and these teachers have always been my light at the end of the tunnel.

May ALLAH grant them tremendous success and happiness in their lives. Ameen.
